

Technical Rider for Galileo's Daughters Multimedia Programs

Equipment requested for the Perpetual Motion programs:

- 6 music stands
- 6 orchestra-quality stand lights
- House PA system for narrator and for audio portion of beginning video clip that begins the performance
- if audio feed not available, a piano amplifier is sufficient
- 12' x 7' screen (or larger) front or rear projection
- High definition projector with HDMI or DVI connection; 720 pixels resolution and 3000 lumens (or higher)
- 2' x 3' or similar-sized table for video artist
- Extension cords

If any of the above is not available:

Perpetual Motion is a fully contained show if traveling by car from New York City; if we are coming to you by plane, video screens and P.A. systems are easily rentable locally if no such equipment is available at the venue.
